

**FARMERS TELECOMMUNICATIONS COOPERATIVE, INC.
FARMERS TELECOMMUNICATIONS CORPORATION
DIGITAL TELEVISION SERVICE
2018/2019 ANNUAL CUSTOMER NOTIFICATION**

Farmers Telecommunications Cooperative and its wholly-owned subsidiary Farmers Telecommunications Corporation (collectively, "FTC") are required by applicable cable television law to provide you with an annual notice of our TV products and services and associated conditions for service. If you have any questions about this notice or about FTC's digital television service or our telephone or wireless services or policies, please contact our Customer Service representatives at (256) 638-2144 (or at 611 within FTC's service area) or toll-free at 1-866-638-2144.

OVERVIEW OF FTC'S SERVICES

FTCtv LIMITED BASIC and LIFELINE BASIC SERVICE

(Basic Tier Availability) These basic tiers are our lowest levels of digital TV service. Both include off air broadcast stations and, generally, a minimal suite of national channels. They may also include from time to time any franchise required public, educational and government access channels. All such programming is subject to change at any time, subject to applicable law. Pursuant to federal law, our customers must subscribe to one of these services in order to subscribe to any other digital video service.

FTCtv EXPANDED BASIC and EXPANDED BASIC LITE SERVICE

The Expanded Basic Service Tier is an optional level of service, which includes all services included in the Limited Basic Service. Expanded Basic Service may include many of the non-premium cable channels, such as the Discovery Channel®, Lifetime®, ESPN®, A&E®, the USA Network®, and TNT®, the interactive Program Guide, access to Pay-Per-View and On Demand when these services become available, and digital music channels. Pay-Per-View and On Demand are not available to FTC business customers. Additional channel tiers, which may also be offered generally, include sports, faith and values, lifestyle, and Latino programming. All such programming is subject to change at any time, subject to applicable law.

PREMIUM SERVICES

Premium Services are available on per service basis consistent with the legal requirements prescribed by the content providers. Premium Channels generally include such services as Home Box Office®, Cinemax®, Starz/Encore®, Showtime/The Movie Channel®, Variety and Hispanic programming. There is a separate monthly charge for premium services.

BUSINESS and TAVERN SERVICES

Business TV packages are available to businesses and private office locations that do not derive their primary revenue from food or drink sales; Tavern TV packages are available to bars and restaurants. The Business Services generally include local broadcast stations, local origination stations, general entertainment programming, select educational programming, national and world news channels, select lifestyle programming and most sports channels offered by FTCtv. Business and Tavern packages include High Definition programming.

OTHER OPTIONAL SERVICES

From time to time, FTC may offer other optional services, such as access to locally originated content or special video events. When offered, details of such services and any related charges are made available on FTC's website at <http://www.farmerstel.com>. FTC also offers a High Definition Access package, providing access to high definition programming, and a DVR Access package, which allows the customer to record FTCtv programming. As of November 1, 2018, HD access packages are offered without addition charges. DVR Access is available at an additional monthly charge.

A NOTE ABOUT PROGRAMMING

FTC receives programming from various broadcast and cable networks. FTC is not responsible for the content aired by these networks and may not alter the programming schedule. Please contact specific cable or broadcast networks directly with your programming complaints or questions.

You will find pricing and channel line-ups provided with this notice.

You may also view the channel line-ups and additional services available at <http://www.farmerstel.com/tv/#ftctv>

COMPATIBILITY OF EQUIPMENT

FTC uses Internet Protocol ("IP") TV technology to provide its digital television services. Most consumer electronics do not yet provide direct compatibility or support for IPTV signals, so there may be limitations in the operation of your customer-owned equipment. Absent such compatibility, the IPTV signal may not be directly connected to any customer provided television or recording device. FTC provides set top boxes ("STB's") as a component of its service. Charges for additional STB's, when they apply, will always be disclosed to customers at the point of order. Many of FTC's STB's have RF outputs, which may allow for connecting other components, such as VHS or DVR devices, to the STB. FTC-provided STB's with recording capability allow for simultaneous recording and playback of programming throughout the home based upon the customer's home layout and the services taken.

CableCARD technology is not compatible with IPTV based digital television service.

The number of televisions that IPTV technology will support in each home is a function of the available bandwidth and usage patterns of the customer. FTC will not attempt to support more devices than the platform allows. The application of rules regarding amplification equipment, bypass switches, or splitters does not apply to IPTV technology.

Operating your television set after it is connected to FTC's digital TV system is easy. To ensure reliable operation, confirm that the STB is plugged into a non-switched power outlet (one that is not controlled by a light switch) and that connections on the back are secure. Loss of power to the STB may result in a temporary loss of your digital TV service. Turn on your television and the STB. Ensure that your television is adjusted to select the proper input, such as HDMI or Component 1, represented by the STB. You will select the channel you wish to view by selecting on the STB. An onscreen guide makes this quite easy.

FTC offers a Universal Remote Control to our customers for use with our Equipment. However, other remote control units that are compatible with STB's or other terminal equipment may be obtained from FTC or from other sources, such as retail outlets. Your remote control also provides access to Closed Captioning. You are encouraged to contact FTC to inquire about whether a particular remote control unit would be compatible with your customer-owned equipment. Please note that customer-owned remote control units might not be functional with FTCtv STB's. We will help you determine, to the best of our knowledge, whether or not the remote you have will work with FTC's Equipment. We cannot guarantee we will have information regarding a particular remote you may have in your possession. We will, in good faith, keep a list of remotes that we know do work with FTC's digital platform. For your convenience, FTC has also provided a Universal Remote Control User Guide for use with our Universal Remote Control, which may be found and downloaded at www.farmerstel.com/remotecontroluserguide.pdf, and a list of TV, VCR and DVD Remote Control Program Codes at www.farmerstel.com/remotecontrolprogramcodes.pdf.

NOTE: THE SET TOP BOX AND REMOTE CONTROL RENTAL DEVICES ARE THE PROPERTY OF FTC (OR ITS LEASING AFFILIATES) AND MUST BE RETURNED TO FTC

WHEN YOU ARE NO LONGER A CUSTOMER. FAILURE TO RETURN ANY PROPERTY OF FTC WILL SUBJECT YOU TO ADDITIONAL CHARGES AND POSSIBLE CRIMINAL PROSECUTION. FAILURE TO RETURN ANY PROPERTY OF FTC WILL SUBJECT YOU TO ADDITIONAL CHARGES AND MAY RESULT IN YOUR CREDIT REPORT BEING NEGATIVELY IMPACTED.

PARENTAL CONTROL

FTC understands that there may be certain television programs available that some customers find unsuitable for members of their household. Certain channels containing sexually oriented programming are carried on the digital platform. FTC advises all customers to periodically audit the channels they receive to determine if any programming is deemed by them to be offensive or inappropriate.

A parental control option is available to all FTC customers who subscribe to the service. Instructions on how to use these features are included in the service user guide furnished to all subscribers and on our website. FTC also offers telephone support on how to use these features. For more information, please contact FTC Customer Service.

SERVICE AND BILLING PROCEDURES

FTC appreciates you as a customer (also referred to herein as "Customer") of our digital television and broadband communication services (referred to herein as a "Service" or the "Services") and has provided below essential information regarding terms and conditions of service, billing procedures and complaint procedures.

SERVICE

REQUEST FOR CONNECTION. Request for connection may be made at the local FTC office, via the Internet at www.farmerstel.com, or by mail or telephone. Customers will be advised of installation and applicable pre-payment amounts. At the time of connection, the installation fee plus pre-payment amounts are due. Unless otherwise specified, billing begins on the date of physical installation. Customers may be subject to credit screening in accordance with applicable law. Based on the results of a credit check, customers may be required to pay a deposit as a condition of service and applicable service restrictions may apply.

INSTALLATION. You or someone of adult age you authorize must be home during any installation or repair of your digital TV Service.

ACCESS. By ordering Service, you agree to allow FTC access to your premises at the service address to install Service, remove equipment upon termination of Service, and to audit, adjust, repair, replace, maintain, move or remove equipment. By accepting Service, you are also granting FTC any easement or rights of way needed to render Services to your property. If FTC is unable to gain reasonable access to your property, FTC reserves the right to discontinue Service.

IN-HOME WIRING. In-Home wiring refers to the wiring that runs from your TV set to a point approximately twelve (12) inches outside of your home or building. It includes extra outlets, splitters, connections and fittings or wall plate attached to the wire, but does not include terminal devices, such as STB's and other FTC Equipment. For new and existing single unit installations, the wiring inside the demarcation point, as defined by the Federal Communications Commission ("FCC"), shall become a fixture to the realty upon installation. For multiple dwelling unit or commercial installations, the wiring inside the demarcation point shall not be deemed a fixture or part of the Customer's realty unless the Customer purchases the wire when Service is terminated.

You may remove, replace, rearrange, repair or maintain any wiring located within the interior space of your home or building, so long as those actions do not interfere with FTC's ability to meet FCC technical standards or to provide services to you or your neighbors. FTC is not

responsible for problems relating to the operation of customer-owned consumer electronic equipment, such as televisions, VCRs, antennas, etc., which may be connected to In-Home wiring. In addition, FTC is not responsible for problems caused by tampering, neglect or abuse.

EQUIPMENT.

a.) FTC Owned. Any STB or other FTC property and facilities ("Equipment") delivered to Customer and/or installed on the premises to receive the Service(s) shall remain the property of FTC. Customer assumes the risk of loss, theft or damage to the Equipment at all times prior to the removal of the Equipment by FTC or return of the Equipment by Customer. Customers may be asked to provide a credit card as security for all HD, DVR, combination HD-DVR STB's, or other like equipment. You may be required to sign a Supplemental Terms - HD Box or DVR Unreturned Equipment Charges form at the time of installation or pick-up at the local office. Failure to return Equipment will subject you to additional charges and may result in your credit report being negatively impacted. Failure by FTC to remove Equipment upon termination of Service does not deem the Equipment to be abandoned.

b.) Customer Owned. Customer agrees that FTC is not responsible for the operation, maintenance, service or repair of Customer's television, computer, telephone, radio or any other consumer electronics which may be connected to the Service(s).

REPAIR OF EQUIPMENT. FTC will repair and/or replace any defective system components, including STB's, at no charge unless such repair is necessitated due to abuse or the negligence of the Customer. In the latter case, a reasonable charge will be assessed by FTC to the Customer.

SERVICE CALLS. If the Customer has a technical problem that is related to the digital television system, there will be no charge for the service call if the problem is associated with the digital platform that FTC maintains. In all other cases, and where the problem is a result of unauthorized tampering with or abuse of FTC's Equipment, a service call charge may be assessed.

PROGRAMMING. Customer acknowledges that FTC has the right at any time to preempt without notice specific advertised programming and to substitute programming.

RESTRICTIONS.* FTC provides digital television service to Customer for private viewing and enjoyment. Customer may not order or request Pay-Per-View, On Demand, digital music or any other programming for receipt, exhibition or taping in a commercial establishment unless explicitly authorized to do so by agreement with an authorized program provider. If Customer fails to abide by this restriction, Customer shall be liable for any and all claims made against Customer or FTC on account of any commercial exhibition.

***PAY-PER-VIEW and ON DEMAND**

Where and when available, Pay-Per-View and On Demand are for private, in-home viewing only – not for commercial establishments. To order one of these services, your account must be current. To prevent unauthorized use in your household, you are responsible for setting up a PIN number, Parental Control and Rating preference. FTC will not give credit for the following circumstances: 1) unauthorized use, 2) if you tape a Pay-Per-View event or movie and are not present to monitor the taping, 3) if you do not call to report reception problems while the movie or event you ordered is on, or 4) if you do not call to report you did not receive the movie you ordered, while that movie is on.

COMPANY CHANGES IN SERVICE AND CHARGES. Subject to applicable law, FTC has the right to change its Service and Equipment, and its prices or fees, at any time. FTC also may rearrange, delete, add to or otherwise change the Service provided on our Limited Basic Service or other levels of Service. If the change affects you, FTC will provide you notice of the change and its effective date at least thirty (30) days in advance of the change. The notice may be provided on your monthly bill, as an insert, or by other permitted communication. If you find the change unacceptable, you have the right to cancel your Service. Please refer to your Standard Terms and Conditions agreement and/or FTC's Price List, if applicable, for any early disconnection reference. However, if you continue to receive Service after the effective date of the change, your continued usage of the Service constitutes your acceptance of the change.

To the extent required by law, after notification of a re-tiering of FTC Services or a rate increase, you may elect within thirty (30) days to change the Services you are receiving at no additional

charge. Otherwise, changes by you of the Services you receive may result in upgrade, downgrade, or change of Service charges. Please contact FTC if you have questions.

TERM COMMITMENTS. From time to time, FTC may offer promotional terms and conditions wherein certain charges, such as installation charges, are waived in return for a commitment by the Customer to maintain the Service for a specified term. In the event Service is disconnected for any reason prior to the term, early termination charges will apply. This term commitment DOES NOT preclude FTC from changing the rates charged for such Services, as detailed in the preceding paragraph relating to COMPANY CHANGES IN SERVICE AND CHARGES.

ASSIGNMENT - CHANGE OF OCCUPANCY. The Service shall only be provided to Customer at the address where FTC's installation is performed. Customer may not transfer Customer's rights or obligations to the Service to any successor tenant or occupant or to any other address without FTC's prior written consent.

BILLING

MULTIPLE CYCLE BILLING. Customer agrees to pay monthly charges in advance. All service charges are billed based upon the initial installation date for the current month and any prorated charges. After payment of the installation fee and the first month's billing as set forth in the Request for Connection section, payment is due by the due date and becomes past due upon your next billing cycle. If there is a billing problem, please call FTC promptly to ensure your bill does not become past due.

DISCONNECT FOR NON-PAY. If a balance remains unpaid beyond the specified due date, it becomes delinquent. FTC will make reasonable efforts (which may include written notices, phone calls, text messages, e-mail, Internet messages, etc.) to contact you, leading to disconnection if the delinquency remains unpaid. Any subsequent reconnect is subject to a reconnect fee, all back balances and the first month's bill, and all costs of collection (if any).

CHECK POLICY. FTC may charge a reasonable "bad check" charge for all returned checks, drafts, electronic funds transfers and bankcard charge-backs. If your check, bankcard (debit or credit) charge or other instrument or electronic transfer transaction used to pay us is dishonored, refused or returned for any reason, we reserve the right to electronically debit your account for the amount of the attempted payment. Your bank account may be debited as early as the same day such initial payment is dishonored, refused or returned. If your bank account is not debited, the returned amount must be replaced by cash, cashier's check or money order.

CORRESPONDENCE. Do not mail written correspondence with your bill statement. Please contact FTC Customer Service with any additional needs.

TERMINATION BY CUSTOMER. Account holder may terminate Service in person at the local FTC office or by telephone. To avoid any billing misunderstanding, telephone requests for disconnection should be followed up either in writing or in person. If Account Holder is on a term agreement and is requesting termination of the agreement prior to the end of the contractual period, then Account Holder is subject to an early termination fee.

TERMINATION OF SERVICE/DISCONNECTED ACCOUNT. FTC reserves the right to terminate your Service based on your delinquent status. FTC will make reasonable efforts (may include written notices, phone calls, text messages, e-mail, Internet messages, etc.) to contact you and advise you of a pending suspension or disconnection resulting from an unpaid balance. In the unlikely event that your account has been disconnected for nonpayment, you may be liable for all reconnect fees, past due balance, first month service in advance and any pro-rated charges. If your account remains unpaid, it may be forwarded to a third party collection agency, and your credit report may be negatively impacted. If your Service is terminated before the end of your contract date, then FTC reserves the right to assess an early termination fee.

Upon termination, FTC may charge additional fees on any unpaid balance and reserves any and all other rights it has under the terms and conditions of Customer's service agreement with FTC and otherwise under applicable law with respect to billing for Service and unreturned Equipment. The replacement cost for any unreturned Equipment will be posted to Customer's account and will appear on billing statement issued subsequent to termination of Service. In the event that the Equipment is destroyed, damaged, lost or stolen, or not returned to FTC upon termination of Service, Customer shall be liable to FTC for applicable unreturned Equipment fees as may be set forth in your Standard Terms and Conditions agreement, FTC's Price List and/or any

Supplemental Terms form, if applicable, or the full replacement cost of such Equipment. Further, Customer understands and agrees that FTC may charge Customer's credit card on file at termination of Service in the amount of any outstanding balance and/ or for the cost of any unreturned Equipment, in accordance with applicable law.

PRIOR ACCOUNTS. Customer warrants that no monies are owed to FTC from previous accounts with FTC. If FTC finds a prior account with Customer with monies owed to FTC, then FTC may apply any funds received to that prior account before the funds are applied to the new account. If Customer is requesting new Services, any prior account balance owed must be paid before new Services can be completed.

MOVING. Before you move, please contact FTC. This is the best way for us to disconnect your Service, recover your Equipment and arrange for digital television service in your new home. Call us in advance, and FTC will schedule a new installation, provided that your new home is in our service area. Should you decide to disconnect your digital TV Service, STB's, remote-control devices, modems and any other Equipment provided by us should be returned to us immediately. Do not leave the Equipment in your vacant home or with anyone else.

INSIDE WIRING. An Inside Wire Maintenance plan is offered to customers for a low monthly rate. It covers the repair of Customers' inside communications wires. The optional plan applies to most inside wiring problems associated with the digital platform and telephone wires. FTC does not service television sets or any other equipment (such as VCRs, home antennas, or other cable compatible equipment) not owned by us as part of this plan, even if it is attached to FTC's digital TV system or to our Equipment. Certain other limitations may apply to the plan, such as the exclusion of repairs necessary as a result of illegal installations, abuse or other misconduct, unauthorized modifications of inside wiring and/or catastrophic events like fires or floods. Please contact FTC for more information about the Inside Wire Maintenance plan.

SUSPENSION/CREDITS FOR LOSS OF SERVICE. If you have a Service problem, please contact FTC immediately, as any applicable credit that is available will be issued from the date you notify us. FTC will not be responsible for any failure or interruption of programming or Service resulting from circumstances beyond its control. Customer shall not be entitled to consequential damages of any sort if the Service provided hereunder is interrupted for any reason. Upon notification by a Customer of a Service interruption, unless otherwise provided in the Service Order, Standard Terms and Conditions agreement and/or FTC's Price List, in the case of a Service interruption or failure of Services in excess of forty-eight (48) consecutive hours, FTC will automatically grant a credit to affected customers for Service interruptions caused solely by FTC, a third party or other causes beyond FTC's reasonable control.

INDEMNITY. In requesting and accepting Service, Customer agrees to indemnify and hold FTC harmless from and against any and all demands, claims, losses, damages, liabilities, fees and expenses (including attorneys' fees and expenses), and other expenses for damages to property or injury or death of any person arising from the installation and provision of Service, except such as was caused by the negligence or willful misconduct of FTC or its authorized employees or agents. You agree that FTC is not liable for any consequential damages as a result of any loss of Service, nor will you make any claims or undertake any actions against FTC for loss of Service.

COMPLAINT PROCEDURES

FTC maintains offices and trained maintenance staff to be promptly available to Customers upon request. Technical personnel will be dispatched as warranted. FTC strives to resolve any complaints concerning its Service as expeditiously as possible.

Should a Customer have any unresolved complaint regarding quality of Service, Equipment malfunctions, or similar matters, the Customer should contact FTC Customer Service. If a complaint remains unresolved, the Customer may write a brief explanation of the complaint and actions taken and bring them to the attention of the corporate office by mailing to FTC, Attention: Darlene Johnson, Customer Service Supervisor, P.O. Box 217, Rainsville, Alabama 35986-0217, or by e-mail at ccd@staff.farmerstel.com. Additionally, local governments designate individuals, councils, boards, committees, or commissions to resolve complaints and ensure compliance with all laws and regulations. These authorities are empowered to petition the FCC to demand compliance. Please consult the local franchising authorities listed below under Contact Information.

THEFT OF SERVICE

Theft of service is the unauthorized interception and/or receipt of any communications and services offered over a cable system or tampering with cable equipment without the express authorization of the cable operator. Cable theft can occur when an individual knowingly and willfully makes illegal connections to a cable system or alters any equipment or installs any unauthorized equipment so as to receive FTC's digital TV signal without FTC's authorization or knowledge. Cable theft can also occur when an individual continues to receive FTC's digital TV signal subsequent to termination of Service.

Any person who unlawfully intercepts or receives communications provided over a cable system violates the Federal Communications Act as amended. [See 47 U.S.C. § 553]. This includes the theft of audio, video, textual data, or other service, including data transmitted to or from a Customer over a system that has interactive capability. Parties found guilty of cable theft are subject to both civil and criminal penalties, which may include substantial fines and/or time in prison. These prohibitions apply to manufacturers, suppliers and users of unauthorized cable devices.

A cable operator may also seek substantial monetary damages for the theft of its cable services. In addition, if the violations are willful and for commercial advantage or private financial gain, the court may award additional damages of up to \$50,000 in civil cases and a maximum of \$100,000 for certain criminal violations, in addition to a maximum of five (5) years imprisonment for subsequent offenses.

PRIVACY POLICY

FTC respects our Customers' right to privacy and has always guarded our Customers' private information with complete confidentiality. In providing television service to you, we obtain certain personally identifiable information, that is, information that identifies you individually. Your information may include: name, service address, billing address, telephone number(s), social security number, driver's license number, premium service you have selected, demographic information, user ID(s), password(s), email addresses, correspondence and communications records. We maintain customer information concerning credit, billing and payment, security deposits, maintenance and repair, equipment and services provided and other service-related functions. It is our policy to collect only the personal information needed to provide the services we offer with the quality you desire and deserve. It is also our policy to keep that information secure and to retain it only as long as needed for our business relationship or as the law may require. We take reasonable steps to protect your information from unauthorized access.

For more information about our privacy practices, please refer to FTC's digital TV Subscriber Privacy Notice. You can request a copy at any customer service center location or view it on our website at www.farmerstel.com. We also mail a copy of the notice to all of our Customers annually and any time updates or changes are made.
